

Rechen-Domino

Zu jedem Spiel gehören *ein Stern* wie auf dieser Seite und *48 Rechensteine* wie auf den beiden folgenden Seiten. Bei richtigem Anlegen ergibt sich eine Figur wie nebenstehend.

Tips zum Ausdrucken:

Viele Printer lassen links und rechts einige Millimeter unbedruckt. Diese Vorlage wurde daher auf dem Papierformat US-Legal (5mm breiter) entworfen, das die meisten Drucker beherrschen. Ausgenutzt wurde aber nur der Bereich, der auf ein normales A4-Blatt passt. Also, einfach den Druckertreiber auf US-Legal einstellen, A4-Papier in den manuellen Schacht einlegen und drucken!
