(c) A. Bergkemper, 5/2000

The puzzle consists of a large triangular grid of 49 small triangles. The grid is bounded by a large triangle on the left and a large triangle on the right, with a central vertical line separating them. The numbers and Roman numerals are scattered throughout the grid, often appearing in pairs or groups that suggest a pattern or a specific arrangement. The numbers and Roman numerals are as follows:

- Top row: 5, 14, 27, 35, 39
- Second row: 18, 42, 4, 36
- Third row: 2, 26, 16
- Fourth row: 33, 15, 21, 82, 19
- Fifth row: 31, 9, 20, 10
- Sixth row: 17, 38, 30, 24
- Seventh row: 23, 36, 12, 9, 41
- Eighth row: 29, 49, 71, 37
- Ninth row: 3, 8, 40, 13

The Roman numerals are as follows:

- Top row: IXX, IIIV, III, IIII, IIII
- Second row: V, XIX, XVIII, XXXX
- Third row: VIII, XXXVIII, XXX, XXXIV, II, IV, XXXVI, XIX
- Fourth row: IIII, XV, XXIII, XI, XXIII
- Fifth row: IX, XX, X, XX, IIII, XXIII
- Sixth row: VIII, IIII, XXXVI, XII, VI, XIV
- Seventh row: IIII, XXIX, XLIX, XLI
- Eighth row: IIX, IXXI, VII, IX, IIII

Dashed lines are present in several triangles, often forming a path or a specific shape within the grid.
